

Proceedings of the Workshop on Wastewater Treatment in Wetlands: Theoretical and Practical Aspects, Starbienio, Poland 10-17 September 2005

Contents:

Development of constructed wetlands and perspectives for wastewater treatment

1. Constructed wetlands for grey water treatment
Lisa M. Avery, Ronnie A.D. Frazer-Williams, Gideon Winward, Chris Shirley-Smith, Shuming Liu, Fayyaz Ali-Memon, Bruce Jefferson.....191-200
2. Pollutant transformation performance in a peri-urban African wetland system receiving point source effluent and diffuse source pollutant inputs
Herbert John Bavor, Michael Waters.....201-206
3. Efficiency of constructed reed bed and reed pond as tertiary wastewater treatment stages during their start-up period
Ryszard Błażejowski, Lech Szajdak, Agnieszka Hoppe-Wawrzyniak.....207-213
4. Planted soil filters with activated pretreatment for compost-plant wastewater treatment
Claus Lindenblatt, Harald Horn.....215-221
5. Sludge treatment and drying reed bed systems
Steen Nielsen.....223-234
6. Experiences of *Salix viminalis* application to water and sewage treatment
Hanna Obarska-Pempkowiak, Katarzyna Kolecka.....235-241
7. Application of used wetland filter media in agriculture - content of heavy metals contents and faecal contamination
Adam M. Paruch, Tore Krogsstad, Petter D. Jenssen.....243-253
8. The role of willow roots in sub-surface oxygenation of vegetation filter beds – mass spectrometer investigations in Wales, U.K.
Peter F. Randerson, Gareth Jordan, Haydn G. Williams.....255-260
9. The legal regulations of sewage sludge management
Arkadiusz Ostojski, Magdalena Gajewska.....261-266

Performance of constructed wetlands

10. Conducting hydraulic tracer studies in constructed wetlands: a practical guide
Thomas R. Headley, Robert H. Kadlec.....269-282
11. Tracer and spike tests of constructed wetlands
Robert H. Kadlec.....283-295
12. Performance dynamics of an LWA-filled - hybrid constructed wetland in Estonia
Ülo Mander, Antti Tooming, Tõnu Muring, Märt Öövel.....297-302
13. Application, design and operation of constructed wetland systems: case studies of systems in the Gdańsk region, Poland
Hanna Obarska-Pempkowiak, Magdalena Gajewska, Ewa Wojciechowska.....303-309
14. Influence of COD-fractions on removal effectiveness and accumulation of organic matter in constructed wetlands
Agnieszka Tuszyńska, Hanna Obarska-Pempkowiak.....311-319
15. Pollutants removal effectiveness in hydrophite filters with sequential vertical and horizontal flow
Agnieszka Tuszyńska, Mattias Worst, Hanna Obarska-Pempkowiak.....321-327

Treatment of industrial wastewater

16. The efficiency of landfill leachate evapotranspiration in soil-plant system with reed *Phragmites australis*
Andrzej Białowiec, Irena Wojnowska-Baryła.....331-337

17. Treatment of wastewater from small slaughterhouse in hybrid constructed wetlands systems	
<i>Marek Soroko</i>	339-343
18. Management of sugar effluent in the Lake Victoria region	
<i>Karin S. Tonderski, Erik Grönlund, Charlotte Billgren, Phillip Raburu</i>	345-351
19. Treatment of aged landfill leachate by cascade constructed wetland systems	
<i>Lei Yang, Kai-Yuan Tsai</i>	353-359
